

MOBILE BLOCK ICE MACHINES PRESS TYPE

MOBILE BLOCK ICE MACHINES PRESS TYPE

Capacity Range
434 pcs/24h to 2.000 pcs/24h

Mobile Block Ice Machines give you many advantages because it is portable, you can place or move them where ever you want or you can even rent.

It allows you to obtain ice blocks by pressing the ice produced by the flake ice machine. You can change the width and height of ice blocks as desired, this is a feature that most distinguishes our product from the others. Termodizayn Mobile Block Ice Machines have dynamic and intelligent design are more practical than the old brine type systems.

It gives you the following advantages:

- Clean & Hygienic
- Fast & User Friendly
- No Moulds & No Glycol
- 24/7 non-stop operation.
- New Design & Latest Ice Production Technology
- Produces blocks of consistent size, shape, and weights.
- Gives you the flexibility to use it either as a flake ice machine or a block ice machine.
- Hydraulically activated system
- One-man operation
