

# 360 Fish versions

## The tabletop fish skinner

Compact tabletop fish skinner, designed for efficient and fast skinning of a wide range of fishes. The unique blade, blunt and star roller system technology is based on 50 years' experience and appreciated for their ease of use, reliability and long life span. The machine is compact and equipped with a safe 24-volt foot switch and pressing roller.

EQUIPMENT

### When reliability becomes important

Cretel designs and manufactures high quality machines and equipment with focus on hygiene, durability and efficiency, by delivering goods with the best price quality ratio.

Cretel owes its privileged market position to its ability to develop a standard range of products and tailor-made solutions.

### Hygienic concept

Solid stainless steel construction to prevent dirt and moisture from penetrating inside the cabinet.

Permanent cleaning of the primary roller by a built-in *comb* or *star roller* cleaning system.

### Technical Features

TECHNICAL FEATURES		
MODEL	DESCRIPTION	PROD. SPEED
